Couples Resorts installs wireless Internet access at their all-inclusive resorts

MONTEGO BAY, JAMAICA – Even those looking to “get away from it all” can’t help but feel the need to touch base with the outside world, even while on vacation, which is why Couples Resorts has installed free wireless Internet access at all of their Jamaican resorts. Couples Resorts can now put one more item on their long list of added value amenities included in their all-inclusive experience. Couples Ocho Rios, Couples Sans Souci, Couples Negril and Couples Swept Away are all wired to provide free Broadband Access to the Internet for wireless devices.

“We understand that even though people go on vacation to escape the daily stresses of life such as work, it is rare that the busy executive can totally eliminate the thoughts and concerns about what is going on at home and in the office,” said Randy Russell, senior vice president of sales and marketing. “Couples Resorts can empathize with the desire to check in on things, so in order to help provide peace of mind, we have installed Wi-Fi to easily allow guests to plug in to the outside world.”

While a busy executive can manage to sneak away on a romantic vacation with their loved one for a few days, it is often hard to keep him or her from a quick e-mail check to make sure nothing is out of order in the office. Couples Resorts makes it as quick and easy as possible to “check-in” so that guests can relax and enjoy their vacations to the fullest.

Couples Resorts, headquartered in Montego Bay, Jamaica, owns and operates four properties in Jamaica, West Indies - Couples Ocho Rios, the first-ever couples only, all-inclusive resort, Couples Sans Souci, Couples Swept Away and Couples Negril.
